FLOSS Mentoring Unconference

A Community Event to Share, Shape, & Scale
Mentoring Efforts in Open Source

Welcome!

- Who are we?
- Unconference goals
 - Make new connections with other people invested in open source mentorship
 - Share challenges, successes, future collaboration ideas, and more
 - Document - so that we can all keep building on our collective experience
→ ossna.flossmentoring.org

Plan for Today

2:10pm Intro/kick-off

2:25pm Pitch grid/voting

2:55pm Selected session 1

3:15pm Selected session 2

3:45pm Break

4:20pm Selected session 3

4:50pm Wrap up

Selected session schedule will be posted outside the room 📌

Please feel free to come & go, and to encourage anyone who might be interested to drop in for a later session!

👤 Who are we?

FLOSS-Mentoring is a cross-sector interest group supporting mentorship in open source, comprised of educators, maintainers, program/organization directors, and more.

💻 Join a monthly call

We currently meet on the second Tuesday of each month, at 11am PT / 2pm ET / 6pm UTC. If you join our mailing list, you'll receive calendar invites with Zoom links. Each call includes a short presentation from a member sharing their experiences and/or seeking feedback, plus updates from smaller working groups on proposals, proposals, events, etc. Please join us if you're engaged in open source mentorship... or would like to be! Recordings of past presentations can be found [here](#).

💬 Join our Discord server

50+ members strong, and growing, this is the best way to engage with our community in between calls! [Join us on Discord](#) to help grow the conversation.

✉️ Join our mailing list

We maintain a low-traffic mailing list; please [subscribe](#) if you'd like to receive invites to our monthly Zoom calls & working group meetings.

💡 Ideas & suggestions

If there's a resource you wish existed, or other ways you think we could support mentorship in open source, feel free to submit an Issue to let us know.

What have we worked on together?

- 3 conference panels (OSSNA, FOSSY, SCaLE)
- 1 event funding proposal
- 1 conference paper (in progress)
- 1 unconference (you're at it!)
- Resource wishlist

CodeDay

- Large scale virtual mentorship program
- Targeting overlooked students attending smaller, affordable colleges (especially 4-year CTC BS/BAS degrees)
- 20 partner OSS projects and open to more!
- labs@codeday.org

Mentorship @ CNCF

Contributor Catalyst

- A mentorship program to support HBCU students contributing to open source
- Come learn more at our talk tomorrow!
 - Emily Lovell (UC Santa Cruz OSPO) & Silas Morgan (Norfolk State)
 - 2:10pm - 2:50pm
 - Bluebird Ballroom 3H

Potential Discussion Topic Ideas

(But please pitch your own, too – seriously!)

- Addressing and preparing for incidents of mentor misconduct
- Developments in mentor training and recruitment strategies
- When mentees are working as part of a team, what can be done to prevent one contributor from doing all the work?
- How should mentorship programs address contributor overuse of AI tools?
- Helping first-time contributors build trust and rapport with maintainers
- Supporting inclusive engagement across languages and timezones

What do you want to talk about?

Please help document our discussions
(to be later archived in our GitHub repo)

Schedule (feel free to come & go)

2:45pm "Start Here" Resources

3:05pm Finding Collaborators & Partners

3:25pm Non-Code Contributors

3:45pm Break

4:20pm (Over) Use of AI

4:50pm Wrap up

Please help document our
discussions (to be later archived
in our GitHub repo)
